

Help St. Thomas by donating used ink cartridges and cell phones!

New Program For 2007-2008 Recycling Books! Funding Factory is Piloting a Book Recycling Program and We Can Make \$\$\$ for St. Thomas

Donate books that meet this very important criteria:

- a. Published within the past five years
- b. In good condition
- c. Retail price on the back of the book is greater than \$12

They are NOT looking for Children's Books. They specifically want:

- Best Sellers
- Textbooks
- Inspirational
- Business
- Instructional
- Non-fiction

Dear parent/guardian,

Our school is collecting empty printer cartridges and used cell phones as an ongoing fundraiser.

Last year, through the Funding Factory Recycling Program, St. Thomas earned about \$700 in cash just by recycling the printer cartridges and cell phones.

We realize that many office supply stores and other businesses are giving a discount or coupon in exchange for the cartridges and cell phones. Please consider sending your used cartridges and cell phones to the school instead of using them to receive this discount.

The rewards for the school are very much appreciated and needed to support our children.

Again, we encourage you to save the cartridges from your home printer and send those along with your used cell phones to the school with your child. ***If you work for a business that is using laser or inkjet printer cartridges or cell phones they may be interested in supporting St. Thomas as well!***

Our school would love to have your employer as a business supporter. Funding Factory offers free collection boxes and shipping to all businesses that collect cartridges and cell phones on our behalf.

To find out more about our cartridge and cell phone collection, please contact Kim Cassella at 324-4066 or at kcassella@metrocast.net for more information.

Collection for all donations are in the lobby of the school.

St. Thomas' children greatly appreciate your support of this program.

Thank you,

Kim Cassella

St. Thomas Parent
